

# LYFLAT HOSE FOR IRRIGATION

## **MATERIAL:**

-TUBE: Blue Pasticized PVC resin smooth surface

-Reinforcement: Hig tensile synthetic fabric

-Cover: Blue Plasticized PVC resin smooth surface

## **WORKING PRESSURE:**

2in – 6 bar (90 psi)

3in – 6 bar (90 psi)

## **APPLICATION:**

-Designed for discharge of water. Irrigation, drainage, sprinkler and water supply applications on farmland and construction site

-Also suitable for light duty dewatering applications and water washdown

## **OTHER:**

-Roll length: 100 meters

-Temperature range: -10°C to +55°C

## **THICKNESS:**

2in – 1.35mm

3in – 1.45mm

## **FEATURE:**

-Lightweight, tough, durable and long service life

-Rolls up flat is easy move, retrieval and handle

-Resistance to abrasion, corrossion, heat and aging

-Easy extend to longer length with hose coupling and clamp
