

Irrigation System with Sprinklers

New **nebulization system** very well for:
Irrigation farming, disinfecting,disinfect tunnel, cooling,etc.
Full **mist sprayer pump** including 24V RO pumps (very quite noise), 10 pcs nozzles.
Body sensor, AC/DC adapter,filter,hose etc.
OEM/ODM are available.

1. Water Pump HY-RO-3440

Volt : 24V
Working pressure : 200psi
Flow Rate at 200psi:≥0.35LPM
Current at 200psi:≤1.5A
Pressure bypass : 320psi±10psi
Current bypass : ≤2.0A

2. Adaptors

Electrical
115-240VAc--12vdc
Current: 4A
With UL certificate
Hydraulic
Tee / Coupligs / Accessories for hose

3.Nozzle: 10pcs nozzle size: 0.2mm 80~145cc/min

4.Hose size: 1/4";Lenght:10M
color: black

5.Filter

6.Body sensor (optional)

Work volt : 5-24V
Max Amps : 6A
working temperature : -20°C~40°C
delayed time : 15 seconds
sensor distance : 3-5m
sensor angle : 120°

continuous working

quiet operation

Body sensor

Work volt : 5-24V

Max Amps: 6A

working temperature: -20°C~40°C

delayed time: 15 seconds

sensor distance : 3-5m

sensor angle : 120°

Fine mist

Nozzle

10pcs

nozzle size: 0.2mm

49~89cc/min

Easy installation

Hose
size: 1/4"
Lenght: 10M
color: black
